Kirchenpauerkai 29
20457 Hamburg

The Motorship Stubnitz is an 80 meters long ex East German fishing vessel from 1964, transformed in 1992 into an independent and moving platform.

Today, the Stubnitz is a cultural center for contemporary live music, club culture, performances, exhibitions, congresses, conferences and events.

In 2013, 2017, 2018 and 2021, the project received the federal award "Applaus" for culturally outstanding live music program. It is a seaworthy industrial monument and culture.spaceship in full operation, living museum and cultural heritage.

From fireside chat with seated dinner...

**...conferences,
meetings and
presentations...**

**Your unique
corporate
event with
buffet and
live concert...**

... to an after-congress party on two dance floors.

We are able to realize various things at this exceptional location, based on your individual wishes.
